Strategic Contact Tips

- **Gatekeepers:** For larger firms like **ASI Construction** or **A-1 Roofing**, reaching out to the **Director of Operations** or **Sales Manager** (like Luke Spinell at Parkside) is often more effective for lead-selling discussions than the CEO.
- **Commercial Focus:** **A-1 Roofing** and **ASI** have significant industrial/commercial footprints. If your leads are technical or B2B, these are high-priority targets.
- **The "Personal" Touch:** **HomeHero** and **Polo Construction** emphasize "people-first" cultures; highlighting how your leads reduce their administrative burden or

"storm-chasing" friction could be a strong angle.

Would you like me to draft a high-conversion outreach script or an "Automated Technical RFP" template tailored specifically for these roofing and restoration principals?
